

Massimo Simonetti wants to make the world a better place – for everyone. As an economist at Bayer, Massimo knows he is doing just that. Searching for solutions and never giving up. That is the passion that unites all of us at Bayer. We call it the Bayer Spirit. If you feel it, too, then it is high time we had a chance to talk about a career at Bayer.

Innovation Manager Mobility (m/f)

Bayer Material Science AG

Job description In this position you open up new market opportunities for Bayer MaterialScience in the area of mobility. The job holder pursues and enhances industry know how in automotive and transportation, especially with regard to mobility industries, structures, value chains, opportunities and trends. Thus, he/she gains full understanding of customer and business units goals, operations, challenges and project requirements. Further, you ensure alignment with our strategy and support Bayer's global lead position as a sustainable company. You are responsible for the establishment of a concerted and effective global business model. Moreover, the identification of sales objectives, volumes and market shares and the development of a marketing plan belongs to your daily tasks. You monitor plan progress, including market conditions, customer needs and competitor activities.

Your qualifications You have a university degree or comparable knowledge in mechanical engineering and perennial experience in the acquisition and management of international projects. Proven professional experience of mobility applications and technologies, materials, processing and manufacturing, regulations and policy and practical delivery of mobility projects are required. Commercial awareness is important to achieve the aims.

Further, you can prove excellent and effective leadership skills, openness and creativity are also important. Moreover, you have high analytic and strategic capabilities as well as excellent organizational skills with the ability to manage multiple priorities and business relationships. Entrepreneurial behavior is indispensable for this working place. The ideal candidate should also be able to demonstrate good communication and presentation skills as well as good knowledge in English which is important in our international company. We expect applicants to possess team skills but also be able to work independently. You are adaptable and willing to travel. Beneficially you provide profound understanding and network regarding to related business units of the Bayer MaterialScience AG. In addition you show the ability to identify customer needs as well as effectively demonstrating automotive/ transportation technology solutions to position Bayer MaterialScience as the top choice provider.

Your application If you are interested in this challenging position, please apply online submitting a cover letter, your CV and references.
